OUR STORY

Kagga & Partners (KAGGA) is a multi-disciplinary engineering firm since its formation in 1974. KAGGA has successfully executed several assignments in East, Central and Southern Africa. It has carried out projects in Tanzania, Malawi, Swaziland, Mozambique, South Africa, Rwanda, South Sudan, Hargesia and Uganda. with a track record of excellence in Sub- Saharan Africa. KAGGA is an ISO 9001:2015: Quality Management System certified firm with its headquarters in Kampala, Uganda and regional offices in Nairobi, Kenya and Pretoria, South Africa with project offices in Juba and Maputo. With over 48 years of experience in Sub-Saharan Africa, KAGGA provides innovative services of technical excellence focusing on meeting or exceeding Client's expectations.

VISION

To be a leading Engineering Consultancy globally

MISSION

To provide independent, quality, efficient and comprehensive consultancy services yielding cost effective solutions

SLOGAN

Engineering Sustainable Infrastructure

Where necessary, KAGGA associates with international firms to enhance its capability to successfully deliver projects.

KAGGA is registered with International Aid Agencies, including:-

1. International Bank of Reconstruction and Development (World Bank/IDA)
2. African Development Bank (AfDB)
3. European Development Fund (EDF)
4. Islamic Development Bank (IDB)

In addition, we have delivered projects funded by, among others:

IFC, DANIDA, CIDA, USAID, DFID, UNIDO, Governments of Uganda, Canada, Saudi Arabia, Kingdom of Spain, South Africa, Swaziland, etc.

Other major private clients have been in the Oil & Gas sector i.e. Tullow, Total and CNOOC.

The firm is a member of several professional bodies, including:-

1. The Uganda Association of Consulting Engineers (UACE)
2. GAMA (the FIDIC African Chapter)

The KAGGA board is composed of 4 Executive Directors and 3 non-executive Directors variously experienced in Engineering, Law, Accountancy and Management. The core staff strength of 40 consists of Engineers, Geologists, Economists, Surveyors, Technicians, Environmentalists, Social Scientists and Administrative support staff.

KEY STAFF

The KAGGA board is composed of 4 Executive Directors and 3 non-executive Directors variously experienced in Engineering, Law, Accountancy and Management. The core staff strength of 40 consists of Engineers, Geologists, Economists, Surveyors, Technicians, Environmentalists, Social Scientists and Administrative support staff.

Eng. Abdu Kagga, PrEng, Chairman

Eng. Abdu Kagga, the founder of the firm, obtained a BSc (Eng) from the University of London in 1967. He has worked in the UK, Kenya, Malawi, Swaziland, South Africa, South Sudan, Mozambique and Uganda. He specializes in Water & Sanitation and Programme & Project Management.

Eng. Peter J. Magambo, REng, FUIPE, Managing Director

Eng. Peter Magambo graduated from Makerere University in 1985 with a BSc in Civil Engineering. He joined the firm straight from university and has worked on different types and sizes of projects and specializes in Water, Sanitation, Drainage and Project & Contract Management. Eng. Magambo has over 35 years' experience in design, documentation, construction supervision, hydrology & hydraulics concepts, bridge & drainage structures' design, flood design models experience in civil engineering works and related infrastructure services. He is highly experienced in contract management and administration, claims review and determination of quantum, dispute resolution, project costs control and administration. He is well versed in the FIDIC and European Union forms of Contract and PPDA Procurement Regulations of Uganda. He has been involved in multimillion dollar projects of up to US\$ 450 million and dispute resolution of claims of up to US \$30 million. He has international experience working in Uganda, Tanzania, Rwanda, South Africa, South Sudan, Eritrea, Djibouti and Ethiopia.

Eng. Frederick Lwanga, REng, Executive Director-Technical

Eng. Lwanga is a Registered Professional Civil Engineer with 32 years of professional working experience. He holds a Master's degree in Project Management (Construction and Infrastructure) from the University of Liverpool and a Bachelor's Degree in Civil Engineering from Makerere University. He's highly experienced in design and supervision, geotechnical investigations, feasibility studies, pavement evaluation, material testing, environmental engineering and engineering materials laboratory management, transport planning, marine studies, HDMIV. He has international experience working in South Africa, Mozambique, Djibouti, Hargeisa and South Sudan.

Tutu Kagga, Company Secretary, Executive Director-Operations/ Acting Oil & Gas Principle Engineer

Mr. Tutu Kagga holds a Masters (MEng) in Civil Engineering from the University of Nottingham, Nottingham UK and a Diploma in Industrial Experience at Scott Wilson Pavement Engineering. He is a Member of The Society of Petroleum Engineers (SPE), Uganda Chapter- Membership No.4363781, a PRINCE2: Project Management Practitioner (2013) and a Member of the Uganda Institute of Professional Engineers.

Eng. Godfrey Wakyabya, Principle Engineer- Water & Sanitation

Eng. Godfrey graduated from Makerere University with a BSc in Civil Engineering in 2001. He has over 20 years' experience and his specialty is design of water supply and sewerage systems as well as geometric and pavement design of roads. He also has good knowledge of design software like LAND DEVELOPMENT, AUTOCAD, Civil CAD etc. He has international experience working in South Africa, Mozambique, Djibouti and Hargeisa.

Daniel Serwawudde, Principal Engineer-Transport & Structures

Daniel graduated in 1992 with a Master of Applied Science in Construction Management and Engineering from the University of Toronto Canada and B. Sc. In Civil Engineering (Hons) from Makerere University. He specializes in Structural Designs and has over 25 years' experience in project management, design (new construction and/ or rehabilitation), tender documentation, BoQs, construction and supervision of buildings, water supply and sanitation, roads and other engineering works.

Eng. Allan Muhumuza, Compliance Manager

Allan is a Registered Engineer holding a B.Sc in Civil Engineering with 16 years' experience as a Civil Works supervision and Design Engineer with particular emphasis on construction of roads, building works and associated infrastructure. He has considerable experience in using the latest design software project management as well as experience in FIDIC form of Contract. He has more than 5 years' experience in measurement of works, preparation of claims, quantification of works, project financial reporting and control and project cost management. He has worked and is well versed with project implementation procedures for road Projects funded by the World Bank (Uganda Support for Municipality Infrastructure Development-USMID, Kampala Infrastructure Improvement and Development Project -KIIDP), Allan is well versed with international design and construction standards including the Eurocodes, The American Association of State Highway and Transportation Officials (AASHTO), Chinese Construction Standards having supervised Design and Build Projects by Chinese contractors and the South African Standards. He has regional experience working in Uganda and South Sudan.

Eng. Joweria Nalubulwa, Projects Resource Manager

Joweria is a Registered Engineer holding a B.Sc in Civil Engineering with over 20 years' experience in design, project management, tender documentation and construction supervision of infrastructure projects including structures, roads, oil & gas, water supply and sanitation facilities and associated infrastructure works. She has been involved in development and implementation of training plans and training of project and counterpart staff in construction methods, contract management and designs.

THE SCOPE OF OUR SERVICES INCLUDE

01

PLANNING

- Project Identification
- Feasibility Studies

03

IMPLEMENTATION

- Tendering process
- Construction Supervision
- Project Management
 - O&M
 - Training.

02

DESIGN

- Preliminary Design
- Cost Estimates
- Detailed Design
- Tender documentation.

04

MANAGEMENT

- Programme and Project Management
- Post-construction Management
- Technical Assistance

**OUR
CAPABILITIES
COVER THE
FOLLOWING
SECTORS:**

WATER

- Water Supply
- Catchment Management
- Dams
- Irrigation

SANITATION

- Sewerage
- Waste water treatment works
- Non-water borne sanitation
- Solid waste management

HYDROPOWER

- Generation
- Transmission
- Distribution

TRANSPORTATION

- Transportation & traffic planning
- Roads
- Railways (iv) Airports
- Marine jetties

STRUCTURAL & GEOTECHNICAL ENGINEERING

- Dams
- Bridges
- Buildings
- Foundations and structural components

INSTITUTIONAL BUILDINGS

- Offices
- Housing
- Hospitals
- Schools
- Markets
- Farm facilities
- Industrial.

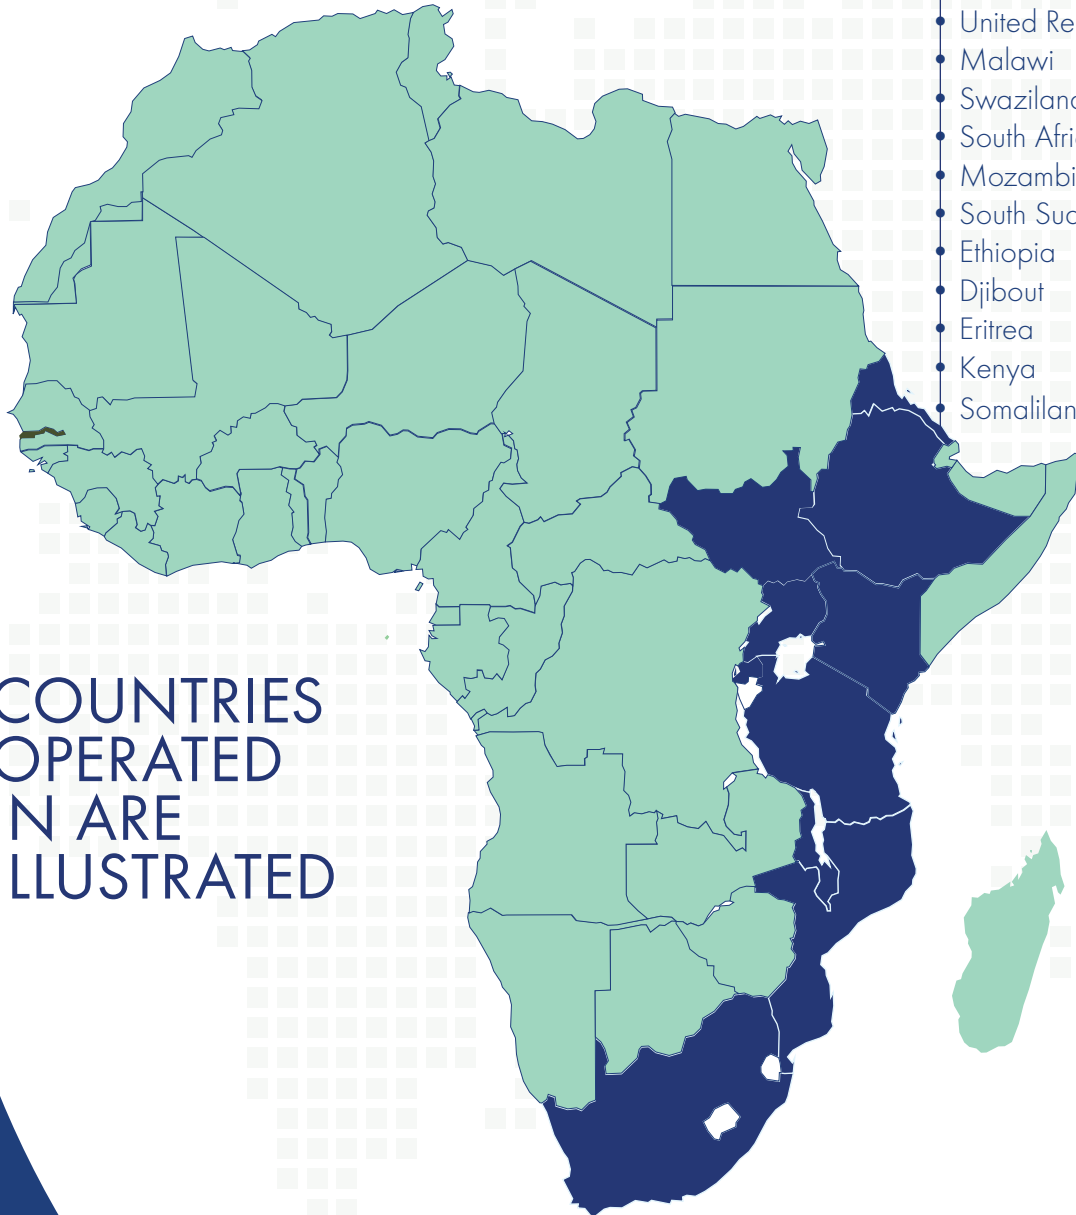

INFRASTRUCTURE ASSET MANAGEMENT

- Conditional surveys
- Asset Registers
- Pavement Management systems

OIL & GAS

Well pads facilities like camp infrastructure, pipelines (preparing), refinery (preparing)

COUNTRIES
OPERATED
IN ARE
ILLUSTRATED

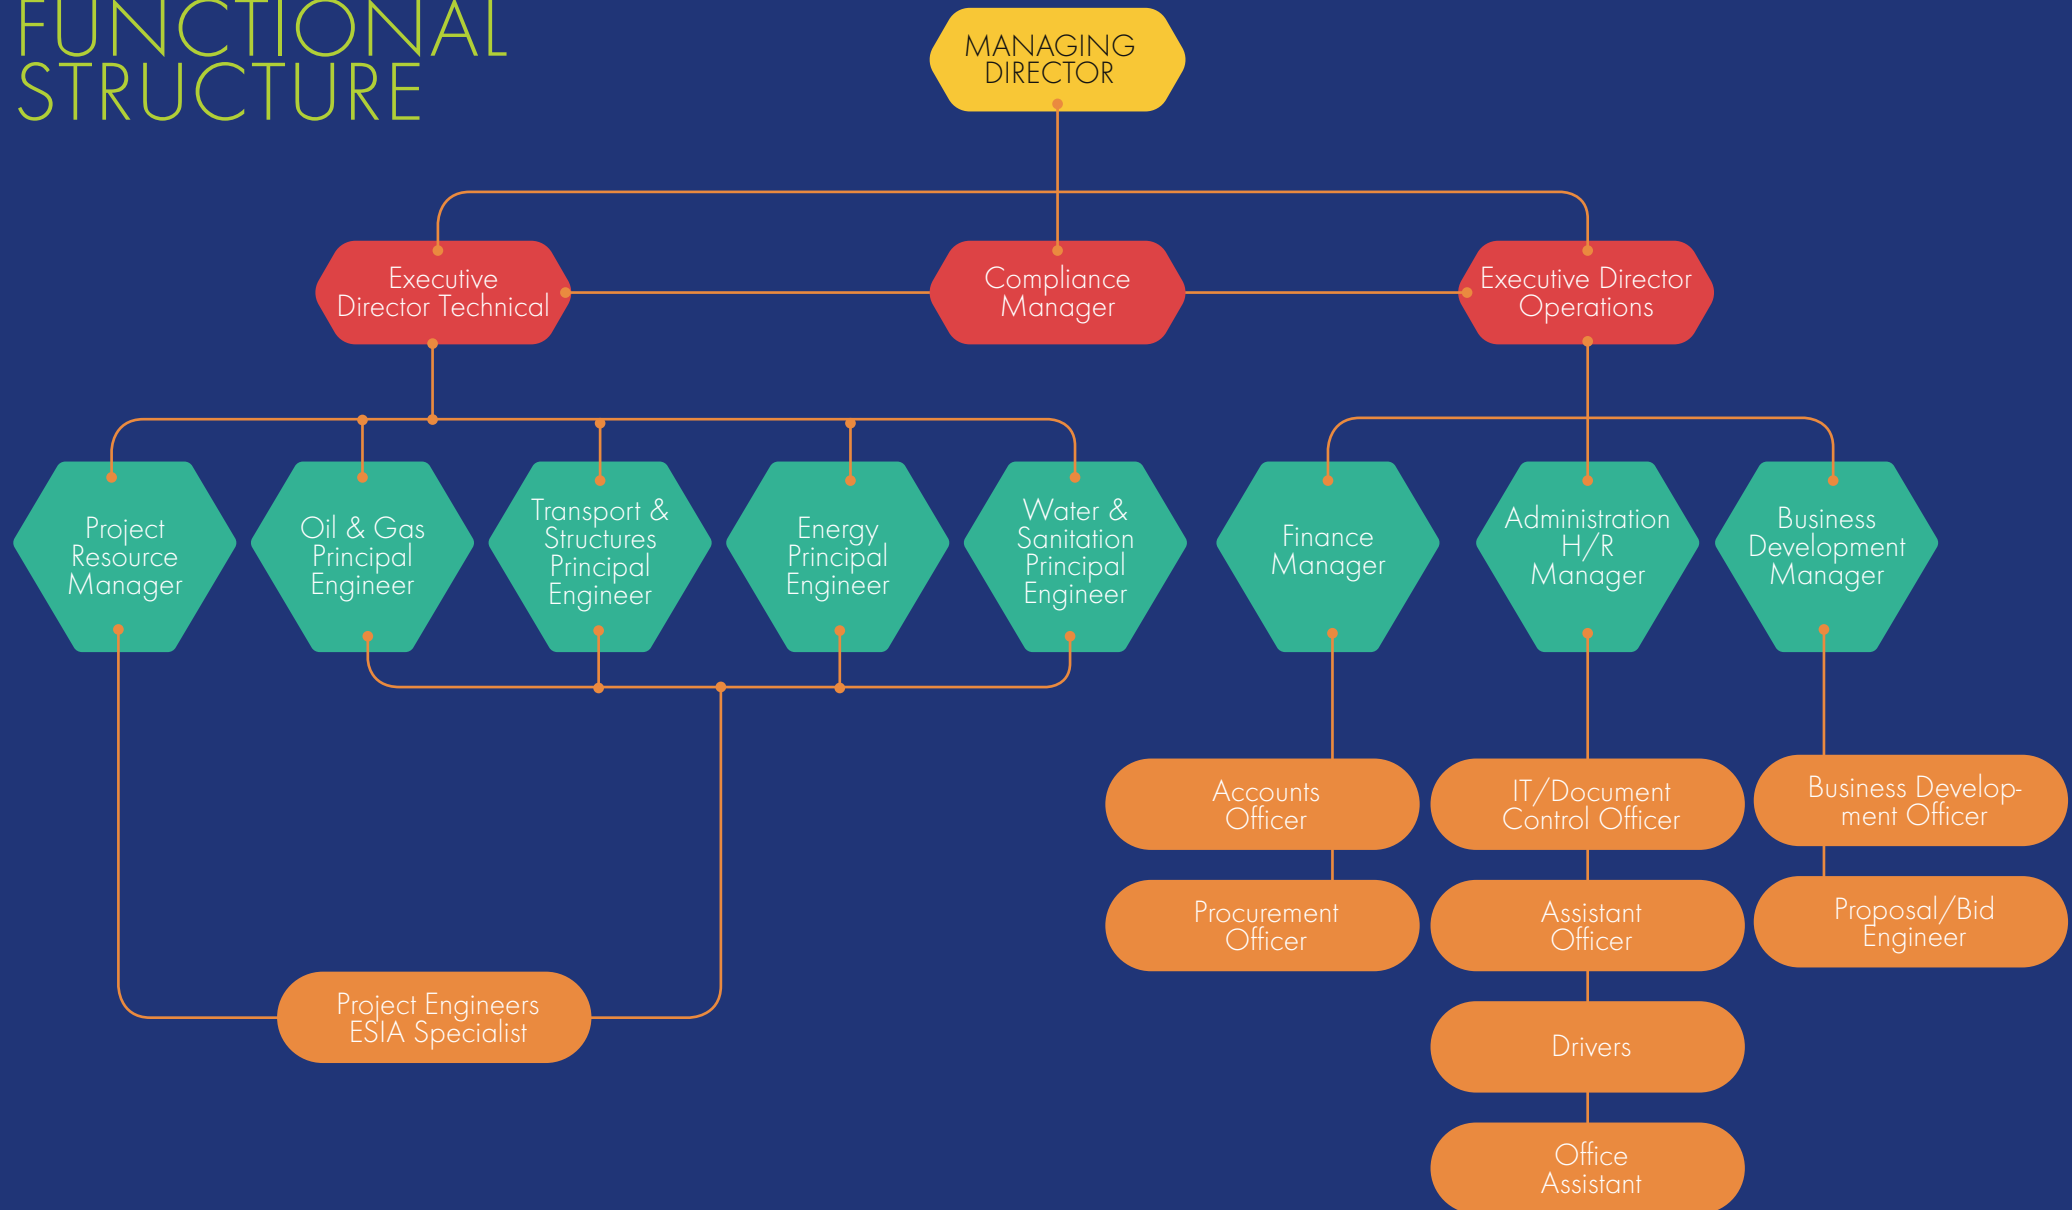

- Uganda
- Rwanda
- United Republic of Tanzania
- Malawi
- Swaziland
- South Africa
- Mozambique
- South Sudan
- Ethiopia
- Djibouti
- Eritrea
- Kenya
- Somaliland

STRATEGIC AREAS OF ACTIVITY

FUNCTIONAL STRUCTURE

STRUCTURAL AND GEOTECHNICAL ENGINEERING

- Dams
- Bridges
- Buildings
- Foundations and structural components

INSTITUTIONAL BUILDINGS

- Offices
- Housing
- Hospitals
- Schools
- Markets
- Farm facilities
- Industrial.

PROJECT NAME & DESCRIPTION	CLIENT/CONTACT PERSON	PROJECTCOST/ COST OF SERVICES	START DATE	COMPLETION DATE	FUNDER
Consultancy Services for the Design, Construction Supervision & Management of the Grid Densification Project to Increase Electricity Access in Rural and Peri-Urban Areas in Uganda.	Ministry of Energy & Mineral Development	US\$ 475,967.50	2017	Ongoing	KFW
Design of Muzizi Hydropower Project	Uganda Electricity Generation Company	US\$ 64,320	June 2018	August 2018	KFW
Consultancy services for the Implementation of the Resettlement Action Plan (RAP) and related services for the Isimba Hydropower Plant (900ha for dam site and flood area) and Associated Transmission Line (TL) (42kms). The project involves acquisition of land for the development of Isimba (183MW) Hydropower plant project and its associated 132Kv Transmission Line in the districts of Jinja, Buikwe, Kayunga and Kamuli. KAGGA has been commissioned to provide RAP implementation services	Ministry of Energy and Mineral Development Cecilia Menya Cecilia@energy.go.ug Mobile: +256 782338110 Email: edwardBalekeebaleke@energy.go.ug or Email: balekessekulima@gmail.com	USD 1,955,560	May 2014	Ongoing	GoU
Grid Extension in West Nile Region Site reconnaissance and data gathering for the Resettlement Action Plan (RAP), preliminary survey of the networks of the areas to be electrified and supervision services for grid extension.	Uganda Electricity Distribution Company Limited (UEDCL) Lourn Bamanya Office: +256 312330300 Mobile: +256772487143 Email: bamanya@uedcl.co.ug	USD 172,636.575	2011	Ongoing	KfW
Isimba Hydropower Plant and Associated Transmission Lines and Sub-Stations Topographical, Geological investigations and studies, Hydrological studies, Environmental and Social Impact Assessment studies, Resettlement Action Plan for Power plant site and Transmission Line route.	Ministry of Energy and Mineral Development Eng. Henry Bidasala Email: bidasala@yahoo.com Tel: +256414311111	\$ 3.8m (Project Cost)	2010	Ongoing	GoU
Efficient and Sustainable Energy Supply in Uganda Feasibility study, design and implementation for the rehabilitation of the existing hydro-power plant (HPP) Maziba in south-western Uganda and the grid extensions and the upgrading of existing distribution lines as well as the investigation of possible new sites for small hydro power stations (Nyagak II & III and Olewa) in the West-Nile Region.	Ministry Energy and Mineral Development Eng. Henry Bidasala Email: bidasala@yahoo.com Mobile: +256 772 658692	USD 293,791.8	2009	2010	KfW

Wellsites. Detailed design of well sites and access roads. Activities include: Topographical surveys and Geotechnical investigations for both access roads and the wellpads. Pad foundation design, cellar design for the well pads and; Access road pavement design, Drainage design, Supervision of construction of access roads	Tullow Uganda Operations(Pty)Ltd Joseph Kibirango Civil Engineering Manager +256312564000	USD 105,176	2012	2012	TullowPty Ltd
Ngiri 2well pad. Design and construction supervision of site preparations and spot repairing of access roads in preparation for well testing.	TOTAL E&P Gregory Feist Civil Engineering Manager +256204916089	Design-USD 4,332 Supervision USD 12,392	2012	2012	GoU
Tangi Waste management area For oil exploration services Design and supervision services for waste pit construction a iTangi yard. Services for the Excavation of waste fluid pits included lining of the pits, Concrete lining of the pits as well as Fabrication and installation of truss units to make pit covers	Tullow Uganda Operations Ltd Joseph Kibirango Civil Engineering Manager +256312564000	USD 10,000	2011	2011	GoU
Framework contracts for roads and infrastructure in the districts of Hoima and Pakwach. Supervision of roads and infrastructure in preparation for oil exploration activities	Tullow Uganda Operations (Pty)Ltd Joseph Kibirango Civil Engineering Manager +256312564000	USD 92,549	2011	2012	GoU

INFRASTRUCTURE ASSET MANAGEMENT

- Conditional surveys
- Asset Registers
- Pavement Management systems

PROJECT NAME & DESCRIPTION	CLIENT/CONTACT PERSON	PROJECTCOST/ COST OF SERVICES	START DATE	COMPLETION DATE	FUNDER
Training of MWE- RWSSD and TSU Staff and District Water Officers in use of Water Design Guidelines and Manual The objective of the study is to Identify areas in the design manual 2013 that addressed the gaps and errors in the first edition of the Water Supply Design Manual 2000 and Preparation of power point presentations and other training manuals for use by the trainees-the water officers ensuring maximum benefit and proficiency in understanding and use of the Design Manual 2013	Ministry of Water & Environment P. O. Box 20026 Kampala	USD 16,400	May 2014	2014	MWE
Unbundling of Infrastructure Assets Reviewing and updating of the existing Fixed Asset Register (FAR), condition assessment on all existing infrastructure and Updating the FAR. (Infrastructure included Water Supply and Sanitation, Electricity,	Madibeng Local Municipality	USD 100,000	2012	2013	Madibeng Local Municipality
Community Services, Roads including road Furniture and Storm water drainage, Development of an Assets Management Policy, Development of the Assets Management Programme					
Condition Assessment and Detailed Engineering Design of 9,000km of District Roads to be Upgraded to National roads Assessment of all identified roads or alternatives and preparation of an outline design. Activities included review of previous documents, undertake road and bridge inventory and condition surveys, carry out Topographic survey and geometric designs, assess the road safety needs and propose measures to promote safety along the roads, identify construction materials, cost for grading and spot improvement for roads, patching and sealing of paved links, full re-gravelling, resealing and rehabilitation options, determine full representative traffic levels and prioritise the roads.	Uganda National Roads Authority (UNRA) Tel: +256 312 233100, 0414 318 000 Email: roadinfo@unra.go.ug	USD 150,179	2010	2011	GoU
Socio-Economic Impact Evaluation for National Roads Completed Since 2002 Data collection, data cleaning and analysis, GIS activities, field assessments including socio and environmental impact assessments on the upgraded and rehabilitated roads with particular emphasis on performance indicators such as vehicle operating costs, travel time, incidences of traffic accidents and other road nuisances, as well as assess the contribution of completed projects on private sector development.	Uganda National Roads Authority (UNRA) Tel: +256 312 233100, 0414 318 000 Email: roadinfo@unra.go.ug	USD 375,988	2011	2013	GoU

PROJECT NAME & DESCRIPTION	CLIENT/CONTACT PERSON	PROJECTCOST/ COST OF SERVICES	START DATE	COMPLETION DATE	FUNDER
Development of a Road Master Plan for Mafikeng, Tswaing, Ditsobotla, Ratlou and RamotshereMolwa Local Municipalities, SouthAfrica Collating and validating information to be used as baseline information, GIS Mapping, providing municipalities with information about the status quo regarding roads in its area including lengths, characteristics and conditions of the roads, highlighting roads that need improvement, developing funding and implementation strategies, identifying, prioritizing and cost future projects.	Ngaka Modiri Molema District Municipality	USD 207,300	2009	2012	Ngaka Modiri Molema District Municipality
Pre-feasibility Study for The development of a long term integrated Bus Rapid Transport (BRT) system for Greater Kampala Metropolitan Area (GKMA) The objective of the study is to define the long term conceptual design of the BRT system for GKMA based upon the current and forecasted travel demand as dictated by the land use and development plans by the local administration, and to prepare terms of reference for: detailed engineering design covering both the infrastructural, operational and PPP aspects, institutional set up and financial controls necessary for implementation of a pilot BRT system on a selected priority corridor.	Kampala City Council Executive Director – Kampala Capital City Authority Tel: +256414581294, +256204660000 Email: info@kcca.go.ug	USD 32,344	2010	2010	World Bank
Road Safety Audit and Risk Assessment for Kaiso Tonya /Hoima Kampala Road Acquisition of the current traverse data base, road condition, bridge condition and assessment of the impact of increased traffic on the roads and propose mitigation improvement to reduce on the negative impact on the routes.	Tullow Oil	USD 20,000	2007	2008	Tullow Oil
Independent Procurement Review of Higher Local Governments in 56 Districts and 18 Municipal Councils in Uganda Activities: Sampling out projects for review of the works, goods and services categories, Data collection including Visiting project offices and project sites, Review of procurement plan and procurement process of the selected projects, Institutional and capacity assessment of project Management units, Financial management Assessment; Data analysis and recommendations included in the Independent Procurement; Review Report.	Ministry of Local Government	USD 145,000	June 2005	Aug 2005	World Bank
